Onaway made 259 yards rushing and 99 by passing for a total of 357 yards. Grayling rolled up 215 yards on the ground and 122 by the airships for a total of 337.

Michelson Memorial Church School

Some 140 pupils of the Michelson Memorial Sunday School took their places in the church auditorium Sunday morning to participate in the annual Promotion Day program. At the end of the program they heard Superintendent Ernest Larson name an enrollment of 350 with average attendance of 250 as the goal to be attained within the next two years.

Small Game Season Opens

Fall has officially arrived, according to both the calendar and recent weather changes along the river and break state, the hunters begin the long-awaited opening of a number of hunting seasons.

Game supplies are ripe for the hunter's harvest at this time of year—before winter, disease and predation have chance to cut back populations anyway—and October 1 has been slated as opening day for a number of species.

Waterfowl and some other migratory birds will be legal game after noon on October 1 through out the state and will, in general, remain open on most species for 55 days. Restrictions on this and other seasons should be checked in the game law digest, available from dealers when you purchase your hunting license.

Other species opening October 1 in various portions of the state include cottontail rabbits and snow shoe hares, ruffed and sharp tailed grouse, prairie chickens, raccoon and bear. Gray squirrels will be legal in a portion of the upper peninsula and pheasants in a portion of Menominee county.

Deer hunters can get started stalking their prey, too—but with bow and arrow only. Firearm deer-hunters will have to wait, as usual, until November 15.

On all these species, time, date and location restrictions on hunting should be checked against the game law digest before hunting trips are planned. Digests are available at all conservation department headquarters buildings or through any of the state's 4,000 authorized license dealers.

Missionaries Guests At S. D. A. Church

Dr. and Mrs. David Duffie and three daughters Julia, Susan and Martha aged 3, 5 and 7, medical missionaries from Peru, South America were guests of the Grayling Seventh-day Adventist church Saturday, September 26.

Dr. Duffie and his wife who is a registered nurse operate a 30-bed clinic in a town of 10,000 population on the shore of 125-mile-long Lake Titicaca, the highest lake in the world, being 2 1/2 miles above sea level which is also above the tree line.

The three girls sang "My Jesus Loves Me" in Spanish, the main language of Peru, dressed in the brightly-colored, homespun, woolen costume of that country. Even though their location was near the equator the temperature, year round, stayed about 50 to 60 degrees with little variation due to the high altitude.

Dr. Duffie told of crossing bridges so weak that they unloaded everything and carried it across the bridge, then drove across and reloaded. He mentioned "positive" and "negative" landings—only one-lane mountain roads, the "positive" coming down the mountain side from above and adding to the road, the "negative" sliding out from below and taking part of the road with it. He referred to pulling teeth, a job for which he had no training. The native Inca Indians marvel at the way a man can take a body to pieces, put it back together again and make it work better than before.

Dr. David Duffie grew up at Central Lake, Michigan; the son of the Dr. Duffie still in practice there, took his pre-medical work at Emmanuel Missionary College, Berrien Springs, Michigan and graduated from the denomination medical college at Loma Linda, California, which is considered as one of the best in United States, by medical authorities.

A Dream Come True

Little did we think one cold night last February that we could raise enough money to build a Community Bowling Alley.

However, by the fine cooperation of the people, the merchants and everyone, the job has been accomplished. The Building Committee wishes to thank each and everyone in every way for all that has been done, to make this a great success. The hope of this committee is that they may now enjoy themselves by bowling on the new lanes.

Until further notice alleys will be open: From 4:00 p. m. to 12:00 p. m. on week days; From 12:00 a. m. to 12:00 p. m. on Saturdays and Sundays.

With the launching of the public drive of the Mercy Hospital Building Fund Campaign with a kick-off dinner at the Michelson Memorial Church in Grayling on Monday, Oct. 5th at 7 p. m., the campaign will enter the final phase. The slogan of the drive will be: "Give for your family's sake to save a life." The success of the campaign will depend on everyone realizing the necessity of having a modern, fireproof hospital building and everyone therefore accepting his proportionate share of responsibility in giving generous three year pledges so as to make it possible to have a new hospital building, the campaign executive committee stated. To date, \$204,873 or better than two thirds of the goal has been pledged.

The goal of the public campaign is \$500,000. To reach this goal it will be necessary to average \$100 in the public drive in three year pledges. In order to do this it will be necessary for many to give on the basis of \$1 per week or a three year pledge of \$156 and others to give on the basis of 75 cents per week or \$117 in a three year pledge. It is hoped that everyone in average circumstances will give on the basis of at least 50 cents per week, for this is the only time in a lifetime that most people have been asked or will be asked to give to Mercy Hospital, the executive committee stated.

While the public drive is being conducted the Memorial Gifts and Special Gifts Committees will continue their activity. The entire

Club Convention Opens Today

A luncheon honoring past president is to be held Friday noon at the AuSable River Inn. A general meeting of the Grayling Woman's Club was held Monday evening at the home of Mrs. Willard Cornell to iron out last minute details in the Convention program which should prove to be an interesting as well as enlightening one.

campaign will end on Oct. 21st.

The campaign executive committee stated, "The facts in the case justify the wholehearted support of everyone in the campaign. For about forty years the Sisters of Mercy have served the people of this area well without asking many contributions. The Sisters of Mercy will give up to \$200,000 toward the building of a new hospital. Therefore, the Sisters of Mercy deserve a vote of confidence expressed by generous giving on everyone's part. Every fair minded and public spirited citizen should realize his personal responsibility in this community and area, helping to provide adequate hospital facilities for one's own family. Practically every family in this area has called upon the Mercy Hospital for services at some time. Now the time is here when every past user and potential future user of the Hospital should accept his personal share of responsibility. Everyone should also realize that service is given by Mercy Hospital on practically a cost basis. This accounts for the fact that rates are lower than most hospitals and also accounts for the fact that there is no profit with which to build a hospital. Therefore, if we are to have a new hospital we must do what the people have done in communities where there is a new hospital—give generously so as to make it possible. Let us not forget also that about \$250,000 in government funds are conditional to our making our goal of \$500,000."

Among the permanent residents who have pledged along with the amount of each pledge are: Fred R. Welsh and family \$3,000, Mrs. Thomas Cassidy \$3,000, Dr. and Mrs. Louis F. Hayes \$6,000, Dr. and Mrs. C. G. Clappert \$7,000, Dr. and Mrs. B. E. Henig \$6,000, Grayling State Savings Bank \$3,000, Mr. and Mrs. Walter F. Truettner \$1,500, Mr. and Mrs. John H. Peterson and Bertha Peterson \$1,800, Dr. and Mrs. J. F. Cook, Dr. and Mrs. H. M. Cook \$3,000, Grayling Mercantile Co. \$2,100, Bear Archery Company \$6,000, Mr. and Mrs. Alfred Hanson \$3,600.

Mr. and Mrs. Alfred Sorenson \$2,100, Mr. and Mrs. Willard Cornell \$1,800, Mr. and Mrs. Franklin P. Hills \$2,400, Mr. and Mrs. George Griffith \$1,800, Roscommon State Bank \$6,000, Roy DeWitt and family \$3,000, Mr. and Mrs. Harold Cliff \$600, Mr. and Mrs. Les Welsh and Baringer's Men's Shop \$1,200, Mr. and Mrs. Carroll Wert \$1,200, Arnold Burrows \$300, Wesley LaGrow \$300, Mr. and Mrs. Bud Hunter \$300, Mr. and Mrs. Jerome Kessler \$300, Mr. and Mrs. Menno Corwin \$300, Mr. and Mrs. Ted Callahan \$1,200, Mr. and Mrs. Esbern Olson \$1,200, Mr. and Mrs. Floyd Davis \$900, Mr. and Mrs. William Ingleson \$800, Mr. and Mrs. Andrew Cherven \$300, Mr. and Mrs. James Rutledge \$300, Mr. and Mrs. Don Weaver \$300, Mr. and Mrs. Cyril Houle \$600.

Quotes On Newspaper Week . . .

Our liberty depends on the freedom of the Press, and that cannot be limited without being lost.
— Thomas Jefferson.

A free press stands as one of the interpreters between the government and the people. To allow it to be fettered is to fetter ourselves. — George Sutherland.

I read the newspapers to see how God governs the world. — John Milton.

Nothing but a newspaper can drop the same thought into a thousand minds at the same time. Newspapers, therefore, become more necessary as men become more equal. — Alex de Tocqueville.

Freedom of conscience, of education, of speech, of assembly, are among the very fundamentals of democracy and all of them would be nullified should freedom of the press ever be successfully challenged.
— Franklin D. Roosevelt

Absolute freedom of the press to discuss public questions is a foundation stone of American liberty.
— Herbert Hoover

Four hostile newspapers are more to be feared than a thousand bayonets. — Napoleon.

Newspapers are the world's cyclopaedia of life; telling us everything from every quarter of the globe. They are a universal whispering gallery for mankind, only their whispers are sometimes thunder.
— Tryon Edwards.

the Avalanche of 23
Years Ago.

Oct. 2, 1930

The first snow flurries of the
season were seen in Grayling on
Tuesday afternoon — very light,
but nevertheless, snow!

Friday was a happy day in the
life of our good citizen Rev. Peter
Kjohede, for it marked the 50th
anniversary of his service in the
ministry of the Danish - Lutheran
Church and 50 years of Christian
stewardship. The day was fittingly
celebrated with many visiting
ministers present.

Frank Ingles, age 37 years, an
employee of Grayling Manufac-
turing Co., lost his life Monday,
when he attempted to start the
kitchen fire with gasoline.

Hotel owners of Michigan en-
joyed an outing through the
northland last week. Thomas Cas-
sady and son, Joseph of Shoppen-
agon Inn, joined the party at

Mackinaw and went to the Soo
where the official meeting was
held.

Elmer Ostrander was delight-
fully surprised at a birthday
party in his honor at the home of
his brother, Charles. It was his
68th birthday.

At the Hi-Y meeting held in
Petoskey last week Thursday
night, Grayling was represented
by the following: Emil Giegling,
M. A. Bates, H. J. Gothro, A. J.
Joseph, O. P. Schumann, Supt.
R. R. Burns, Rev. J. W. Green-
wood, Brad Jarmila and DeVere
Dawson.

Michael John Sheehy, age 81
years, passed away at his home
here this morning after a six mon-
thly illness. He is survived by his
widow, two daughters, Mrs. Nola
Laurant and Miss Odie, and two
sons, Curry and Reginald Sheehy.

Mrs. Tracy Nelson and Mrs.
Herbert Gothro entertained a
number of ladies Monday evening
at the home of the latter.

Mr. and Mrs. Arthur Clough
are happy over the arrival of a
daughter, born Tuesday morning.

Eighteen ladies enjoyed a lun-
cheon of lovely appointments at
the summer home of Mrs. H. A.
Bauman Friday afternoon. Mrs.
Bauman and Miss Margaret were

the hostesses. Mrs. Fred Alexan-
der and Miss Lucille Hanson held
high scores. Mrs. George Alexan-
der and Mrs. Oscar Schumann,
tying for low score.

Mrs. Vera Mewhinney enter-
tained with two tables of "500"
Monday evening for the pleasure
of her mother, Mrs. Elmer Mat-
son, it being her birthday. The
affair was a complete surprise to
the guest of honor.

Mr. and Mrs. Alfred Hanson ac-
companied by Miss Irene McKay
left Wednesday for Boston to at-
tend the American Legion con-
vention.

Correction: We wish to call at-
tention to the figures published in
our article relative to the cost of
the bridge across the AuSable
River replacing the old Wakeley
bridge. Instead of the cost being
\$1,500, it should have read, \$6,035.
Highway Commissioner James
McDonnell, who was not mention-
ed, also deserves credit as he was
the man on the job from the start
to the finish.

A freight train wreck on the
Lewiston branch near Buck's last
Thursday causing considerable
delay and distributed a lot of lum-
ber along the track for some dis-
tance. The excessive rain had soft-
ened the road bed, so it could not
stand the pressure of the heavy
train.

Last Saturday the two-cent fare
rate went into effect on all the
railroads of Michigan.

County Clerk Collen and wife
with the two youngest are tak-
ing their first real outing for a
number of years.

The old Salling, Hanson Co.
Mill is being so changed that its
oldest friends would not know it.
The circulars are being removed
and a most complete and modern
band-mill takes their place.

From where I sit ... by Joe Marsh

One for the Books!

Noticed the Missus had a red ribbon tied around her finger at breakfast one morning last week. "What's that for?" I asked. "Your memory slipping?"

"It's not for me," she answers, "it's to remind you, and everybody else who asks what it's for, to contribute to the Woman's Club Library Fund. We need \$200 and we figured we'd get more help if we could get people to ask us about it."

Well, as it turned out, the red ribbon worked just fine. The ladies are having the library all

fixed up—and there's enough money for some new books, too. From where I sit, it would be a fine thing if we had some sort of private reminder when we forget the rights of our neighbors. Like when we start telling them what we think is best. I may like a travel book and a temperate glass of beer while you prefer a cup of tea with your historical novel. Let's both remember not to "put the finger" on the other!

Write Of Hunting Trip In Alaska

Miss Kathryn Anderson and Mrs. Francis Habel, of Maple Forest who are in Nenana, Alaska, write of their experiences, while on a camping trip along the Nenana River there. Miss Anderson is teaching in the schools there and Mrs. Habel, who is a daughter of Mr. and Mrs. Bert Plagens is attending school and also assisting in the school there. They have been in Alaska now a couple of months. This is their letter in part:

Sept. 20, 1953, 9:30 P. M. We left yesterday morning and went down river about 30 miles in a ketchikan we had borrowed from one of the men in town. We took our tent, bed rolls, shot gun, rifle and two revolvers. Arriving about noon we stopped and pitched our tent and set up housekeeping about ten feet back from a big clearing. That done we started out moose hunting. We wandered around till dark, but only saw three cows and what we thought was a bull moose. We went to bed very tired and slept warm in our sleeping bags as it was very cold out. We arose at about 9:00 o'clock and were in the act of building a fire to get breakfast when we looked across the clearing to see a bull moose feeding. We were too far away for a good shot so taking our guns we crawled along the side of the clearing and when we thought we had gotten close enough to him we both fired a shot and he started running in our direction. They are so vicious when they are wounded that we both fired as fast as we could and after three

shots he dropped. We were afraid to go near him right away so waited for about five minutes and then went over and shot him in the head with our revolver. Then we proceeded to clean him out and cut him up. This was a sickening job but we had to do it to get him to the boat. It was about 3:00 P. M. and we happened to think we had had nothing to eat so we grabbed a bite, took down our tent and loaded about half of the moose in the boat, (the rest we went back and picked up later). We will have to give most of the meat away to the natives as we have no way of keeping it, but it will take care of our meat situation for a couple of weeks at least. We are dead tired tonight after our experience. To people around here getting a moose is an any day occurrence, but to us it is really something.

Signing off for tonight, Fran and Kathy.

THE FINE CAR

at half the fine car price

Duplicating America's costliest cars, feature after feature, Ford is worth more when you buy it . . . worth more when you sell it!

A FEW MINUTES on the telephone calling the dealers who sell America's finest cars will reveal there are at least eleven models among four makes with price tags over \$4,000!

Now the interesting thing is that in feature after feature the Ford car duplicates each of these fine cars, and for less than half the fine car price!

Look under the hood of the most expensive cars and what do you find?

A V-8 Engine! Well, the Ford car has a V-8, too. In fact, it has had a V-8 since 1932, and since that time Ford has built more V-8's — by millions — than all other manufacturers combined. And there's no other builder in Ford's price range that's seen fit to offer one yet!

But the engine, as fine as it is, is only one of many things that make a fine car fine.

Automatic shifting, for example. All the fine cars offer it in one form or another because it's one of the things that make a fine car fine. But if you've never driven a Ford with Fordomatic you've missed one of the finer things of life. This amazing transmission not only does away with clutching and shifting forever — it

gives you exactly the amount of power you want, when you want it — automatically.

Fine car power steering, too. The big, heavy costly cars offer it for the same reason they offer power brakes. It's a man-sized job for a 120 pound woman to handle a car weighing two tons or more without it — especially when parking. Our "Master-Guide" has two distinct benefits.

First, it gives a hydraulic power assist right down at the wheels and just enough to take out the work. You don't relinquish one particle of control — rather your control is more complete and far easier.

Second, being hydraulic, "Master-Guide" power steering absorbs those fatiguing steering wheel tremors caused by ruts and roads in bad repair. And you don't pay a fine car price for "Master-Guide."

But there is another fine car feature — the Ford ride. Books have been written on the subject of riding quality in an automobile, but the lack of it! Many people associate a comfortable ride with excess weight, but it's not weight alone that makes for comfort. If it were, those big five-ton trucks which you see every day

would be the most comfortable vehicles on the road.

Without being technical we can tell you that what's been done with the suspension and springing system gives the Ford a softer ride, a smoother ride than many cars which tip the scales at better than an added half ton.

What about room? Here's an interesting point. If you've felt that only a costly car offered enough room, you just ought to sit down in a Ford even if you're out-size and six feet four! The so-called big car is bigger on the outside, but unless you buy a limousine with those little jump seats, it's not one passenger bigger inside.

Visibility is another fine car Ford feature. We say Ford cars offer "full-circle" visibility because they all have huge, curved one-piece windshields and a huge rear window to match . . . plus side windows that mean every passenger gets room with a view!

How beautiful is a Ford? A great English poet, John Keats, once wrote "Beauty is Truth, Truth Beauty" — well, he could have been writing about our car for its beauty comes from honest, clean lines in every dimension. In fact, we think most people agree — even our competitors

— that the appearance of a Ford Car leaves very little to be desired. It is "at home" wherever it goes and it goes everywhere.

But what about Ford quality? Does it too match the fine car? Is the sheet metal of the body panels as thick? Is the finish as good? How about the trim and things like that? Well, as far as we can determine, the sheet metal is identical in thickness in practically all instances. As to finish — we believe Ford's baked-on enamel has no equal in any car. Ford upholstery fabrics and trim are less costly, but they're less delicate, too, and if anything, more durable.

How then is it possible to give you this fine car at half the fine car price?

Part of the answer lies in Ford manufacturing skills and knowledge as evidenced by the V-8 engine. Part of it comes from the ever increasing numbers of cars Ford produces and the economies they make possible. And, part of it comes from Ford's willingness to give greater values than might be expected in cars selling in Ford's price range. And that's the Ford idea.

We're heading your way with gasoline to power your car, fuel oil for your home and hundreds of other oil products that bring you better living.

In America's highly competitive oil industry every oilman has a special job. Some search for oil, some produce it and some refine it. But before the products of petroleum can bring you comfort and convenience, they must be delivered where and when they are needed — in any weather, in any emergency. That job is done by oil transport companies like ours.

Here's our pledge that our drivers and our trucks will keep rolling — bringing oil progress to this community.
